BLACKOUT
CITY IN CRISIS
THE CITY IS IN DARKNESS, WILL YOU BE ITS LIGHT?

GAME OVERVIEW

4 PLAYERS

PLAY TIME: 40-50MINS

GAME TYPE
STRATEGIC BOARD GAME/RESOURCE MANAGEMENT/SEMI-COOPERATIVE

8 ROUNDS

THEME

The city was once a thriving community, divided into four districts, each providing a vital resource. After a catastrophic series of disasters, the city's infrastructure is in ruins and remains unstable. As district leaders, you must manage resources, respond to disasters, rebuild the city, and work together to keep it from collapsing - while also proving that your district contributed the most.

WINNING CONDITIONS

COLLECTIVE GOAL
Keep the City Crisis Meter below 10 until the end of Round 8.

INDIVIDUAL GOAL
If the city survives all 8 rounds, the player with the highest Resilience Score becomes the City Savior.

IMMEDIATE DEFEAT
If the City Crisis reaches 10/10, the city collapses and all players lose.

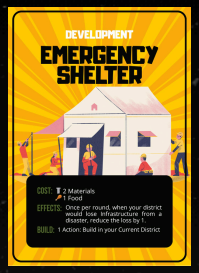

DEVELOPMENT CARDS

WATER CONTAMINATION

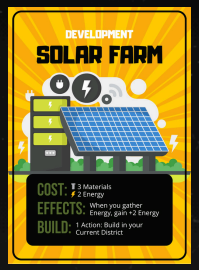

COMMUNITY FARM

EMERGENCY SHELTER

COMMUNICATION TOWER

SOLAR FARM

WATER RESERVOIR

1. THE CITY & ITS DISTRICTS

Four districts, one city. Each district specializes in a unique resource.

CENTRAL CITY

Houses critical infrastructure: Power Plant, Water Facility, Hospital, Emergency Center.

2. COMPONENT & SETUP

2.1 Board Locations

- 4 District (North, West, East, South)
- 1 Central City (hub)

2.2 Player Components

- 4 Player Pawns (green, blue, yellow, red)
- 20 District Infrastructure Tokens
- Resource Pieces
- 4 Player Area/Dashboard

2.3 Resource Bank

- Food, Water, Energy, Materials (token)

2.4 Central City Infrastructure

- Power Plant, Water Facility, Hospital, Emergency Center, (Each starts as ACTIVE)

2.5 Decks

- Disaster Deck (8 cards)
- Development Deck (6 cards)

2.6 Dice and Trackers

- Disaster Severity Die (d6)
- District Die (d6)
- City Crisis Counter (0-10)
- Round Counter (1-8)

3. PLAYER STRUCTURE & RESOURCES

STARTING RESOURCES

	FOOD	WATER	ENERGY	MATERIALS
NORTH	3	1	1	1
WEST	1	3	1	1
SEAST	1	1	3	1
SOUTH	1	1	1	3

DISTRICT INFRASTRUCTURE

Each district starts with 5 Infrastructure
If it reaches 0, the district collapses (+2 Crisis)

4. TURN STRUCTURE & ACTIONS

Each round follows this sequence:

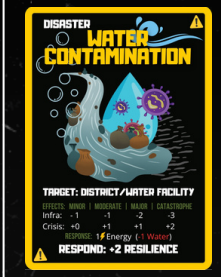

1. **Determine Disaster Severity (roll d6)**
2. **Determine Affected District (roll d6)**
3. **Draw Disaster Card**
4. **Apply Disaster Effects**
5. **Increase City Crisis Meter**
6. **Player Discussion**
7. **Alternative Actions (3 per player)**
8. **End-of-Round Check**

4.1 ALTERNATING ACTION SYSTEM

The affected player takes the first turn, and play proceeds clockwise around the table (Example: East → South → West → North). Each player has a total of 3 actions per round. However, players may only perform 1 action per turn, meaning play will cycle around the table 3 times until all actions are spent and the round concludes.

Action	Cost	Requirements	Result
Move	1 Action	Adjacent location	Move 1 location
Gather	1 Action	Be in a district	+2 local resource
Trade	1 Action	Same location as another player	Exchange resources
Build	1 Action	Be in home district + pay cost	Build Development (permanent)
Repair	1 Action + 2 Materials	Be in Central City	Damaged building → Active
Respond	1 Action + card cost	Be in affected district	Reduce disaster effect + Resilience

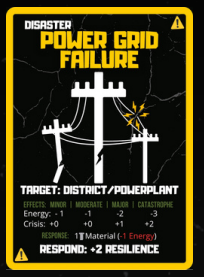

DISASTER CARDS

WATER CONTAMINATION

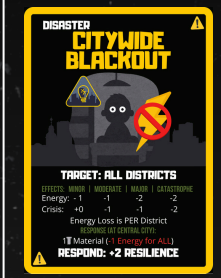

SUPPLY SHORTAGE

POWER GRID FAILURE

SEVERE STORM

CITYWIDE BLACKOUT

INDUSTRILA ACCIDENT

TYPHOON

EARTHQUAKE

RESOURCES

INFRASTRUCTURE

FOOD

RESILIENCE

WATER

ENERGY

MATERIAL

11. END-OF-GAME CONDITION

CITY SURVIVES
Complete 8 rounds without the CRISIS METER reaching 10.

→ Compare Resillience Scores. HIghest score = City Savior

CITY COLLAPSE
If Crisis reaches 10/10 at any time.

→ All players lose.

TIE BREAKER
If two or more players are tied for the Resilience score, they can earn bonus points from their resources. Every set of 3 matching resources counts as 1 additional Resilience point. (Example: A player with 3 Materials and 3 Food gains 2 extra Resilience points.)

12. QUICK REFERENCE

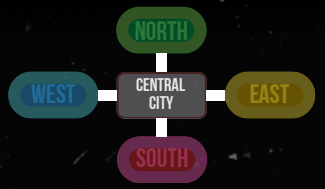

Player Actions	
Move	1 Action
Gather	1 Action
Trade	1 Action
Build	1 Action
Repair	1 Action +2 Materials
Respond	1 Action + Response cost

Disaster Severity → Crisis	
Minor	+0
Moderate	+1
Major	+1
Cathastrope	+2

District Collapse = +2 Crisis

5. MOVEMENT & SATIAL MECHANICS

Hub and spoke movement, Central city connects to all district.

- INVALID MOVEMENT
NORTH > EAST
! YOU MUST GO THROUGH CENTRAL !

VALID MOVES
NORTH > CENTRAL
CENTRAL > WEST
EAST > CENTRAL
CENTRAL > SOUTH

- Multiple pawns can occupy the same location.
- A pawn does not automatically return home.
- Players can move to help, trade, repair, or respond.

6. DISASTER SYSTEM

Each round, a new disaster is triggered using three elements:

1) Severity Die 2) District Die 3) Disaster Card

6. 1 DISASTER SEVERITY

Roll	Severity	Crisis Increase
1-2	Minor	+0
3-4	Moderate	+1
5	Major	+1
6	Catastrophic	+2

6. 2 DISTRICT TARGETING

Roll	Affected District
1-2	North
3-4	West
5	East
6	South

7. CENTRAL CITY INFRASTRUCTURE

Each building can be ACTIVE or DAMAGED. Repair at Central City (1 Action + 2 Materials)

Building	Active	Damaged	Repair Cost
Power Plant	Energy gathering works normally	No energy gathering	1 Action + 2 Materials
Water Facility	Water gathering works normally	No damage reduction	1 Action + 2 Materials
Emergency Center	+2 resilience (for respond)	+1 Resilience (for respond)	1 Action + 2 Materials

8. DISASTER CARDS

8 cards, each with an effect, response cost, and optional Central City effect.

Each disaster cards effect depend on the severity of the disaster as we have 4 severity of the disaster (MINOR, MODERATE,MAJOR, CATASTROPE). the effect of the disaster cards shown in the table is *based on the **MINOR** effect of the disaster*.

DISASTER	EFFECT (DEPEND ON SEVERITY)	RESPONSE COST	CENTRAL CITY EFFECT
EARTHQUAKE	-1 INFRASTRUCTURE	1 MATERIAL	HOSPITAL = DAMAGED
TYPHOON	-1 INFRASTRUCTURE	1 WATER	--
POWER GRID FAILURE	-1 ENERGRY	1 MATERIAL	POWER PLANT = DAMAGED
WATER CONTAMINATION	-1 INFRASTRUCTURE	1 ENERGY	WATER FACILITY = DAMAGED
SUPPLY SHORTAGE	-1 FOOD	1 FOOD	--
INDUSTRIALS ACCIDENT	-1 MATERIAL	1 WATER	EMERGENCY CENTER =DAMAGED
SEVERE STORM	-1 FOOD	1 MATERIAL	--
CITYWIDE BLACKOUT	-1 ENERGY (PER DISTRICT)	1 MATERIAL	--

9. DEVELOPMENT CARDS

6 unique cards. Build at your home district (1 Action + listed cost).
Once built, the effect remains active.

Development	Cost	Permanent Effect
Solar Farm	3 Materials + 2 Energy	Gather Energy +2
Water Reservoir	3 Materials	Gather Water +2
Community Farm	3 Materials + 2 Water	Gather Food +2
Supply Warehouse	3 Materials	Prevent up to 2 resource loss once/round (Not for Infrastructure Crisis, or Central City
Emergency Shelter	2 Materials + 1 Food	Reduce Infrastructure loss by 1 once/round
Communication Tower	2 Materials + 2 Energy	+1 Resilience (for successful Respond)

10. CITY CRISIS, INFRASTRUCTURE & RESILIENCE

City Crisis Meter

Starts at 0/10, Increase from:

- Minor Disaster: +0
- Moderate: +1
- Major: +1
- Catastrophic: +2
- District +2

Reaching 10/10 = City Collapse (all lose).

District Collapse

When a district's infrastructure reaches 0:

- District collapses
- +2 Crisis

Recovery procedure not yet defined in this version.

Resilience Score

Earned by:

- Successful Respond: +2
- Help another player: +2
- Build Development: +2
- Repair Central City: +3
- Communication Tower: +1 (for Respond)

Emergency Center modifies Respond reward:

- Active +2
- Damaged +1
